Run Better, Run Faster: Using a Biomechanical Approach

By Herb Kieklak

Culicidae Press, LLC, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.This book is written to help both current runners-and those who want to become a runner-learn how to run more smoothly, more efficiently, and for longer periods of time without injury. We wanted to get rid of the painful early sessions that go with learning to run the traditional way (I used to hate running when I first started). We feel there is no need to pound the pavement or feel all beat up after a run (muscle soreness and hard work are OK, feeling beat up is not). Here is what we are going to cover in this book:

1. Screening for Potential Injuries Before You Start 2.

Biomechanics: learning good technique always beats getting stronger. This is the main argument of the book. 3. The Key Points that make up the Grab N Go system: - Five parts of running: - Symmetry of arms and legs; - Posture for ergonomics-this is important. - Master these areas before putting more time into anything else. It may take a bit longer to learn but pays off...
