Createspace, United States, 2014. Paperback. Book Condition: New. 203 x 127 mm. Language: English . Brand New Book ***** Print on Demand *****.How are you feeling about your exams? If the answer to this question is that you are quietly confident, looking forward with pleasurable anticipation to your forthcoming success, then perhaps you don't need this book! But if you are like most of the students I have taught, the answer to this question will probably range from tense and apprehensive through to miserable, very worried, and even totally terrified. Honestly, it doesn't have to be like this. I'm not suggesting that simply reading this book will have you happily skipping up the street towards your exam, grinning with excitement at the thought of the upcoming fun. You don't need to depend on luck or hope. In this book, I'll be showing you the exact skills you need to improve both your performance and those all-important results! I aim to show you how to work smarter, rather than harder! Don't waste hours and hours of your time frantically revising in ways that are completely inefficient. Find out how your brain works best and use that information. Surprisingly, it turns out that you learn better when you're relaxed and enjoying yourself than when you are working hard. So my aim is for you to learn as enjoyably as possible. I'll be sharing with you information to help you maximize your learning by working with your own bio-rhythms, rather than against them. I'll also be showing you how making some...
