CONCENTRATING ORES BY FLOTATION: BEING A DESCRIPTION AND HISTORY OF A RECENT METALLURGICAL DEVELOPMENT, TOGETHER WITH A SUMMARY OF PATENTS AND LITIGATION (CLASSIC REPRINT)

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Concentrating Ores by Flotation: Being a Description and History of a Recent Metallurgical Development, Together With a Summary of Patents and Litigation This book is intended as an interim report of progress in a rapidly developing art. It is put forward in the hope that it may prevent duplication of labour on the part of ambitious inventors, and that it may give engineers not already familiar with the subject a starting point in the application of a new method of turning ores to account. My debt to the labour and assistance of others can hardly be acknowledged adequately. To the directors of Minerals Separation, Ltd., cordial thanks are due for permission to publish much information collected during four years while acting as their general manager and consulting engineer. Although this permission is kindly granted, they are not necessarily in agreement with all the opinions expressed, and, in fact, quite properly oppose some of the views set forth. To H. Livingstone Sulman and Hugh F. K. Picard, of the firm of Sulman Picard, I am indebted for many ideas absorbed from them through three years of pleasant professional association (during which time the were consulting metallurgists to the above company). They have in preparation a book on the Theories of Concentration Processes Involving Surface Tension, which will be a work of high scientific merit. I have endeavoured, I hope successfully, not to trespass on any new and unpublished ground, the announcement of which rightfully belongs to them; further, it is not my desire to present the subject in so profound a manner as they will do, deeming it of considerably more use to engineers to leave...
